Wheat Pool Makes Second Interim Payment To Farmers

Seventeen and a Half Cents. Being Paid on No. 1 Northern

The following article was this week issued from the office of the Alberta Wheat Pool in Calgary:

A second interim payment on wheat delivered during the past crop year was announced by the Alberta Wheat Pool on Wednesday, July 31st. The basis of this payment is:

No. 1 Northern	17 1/2c
No. 2 Northern	16 1/2c
No. 3 Northern	15 1/2c
No. 4 Wheat	14 1/2c
No. 5 Wheat	13 1/2c
No. 6 Wheat	12 1/2c
Feed wheat	4c
Tough 1 Northern	23c
Tough 2 Northern	20 1/2c
Tough 3 Northern	19 1/2c
Tough No. 4	18 1/2c
Tough No. 5	16 1/2c
Tough No. 6	15 1/2c

Besides the above, payments were made on something like thirty other grades ranging as high as 46c on 3 tough smutty wheat, to as low as 2c on broken wheat.

The total amount of the payment made by the Alberta Pool was over eight million dollars. There will be another payment during the coming fall.

Deductions for elevator and commercial reserves and expenses, totalling 4c a bushel, have been made from the payment to members. This amount is slightly more than will be required, but the exact figures will not be available for some time yet, at the end of the pool's business year. When the final figures are available the excess will be refunded to members along with the final payment.

Taking every phase of the marketing year into consideration it must be admitted that this interim payment is on the whole a very good one. It may appear to some that the payment on No. 6 and feed wheat is proportionately small, but it must be remembered that when the initial payment on the higher grades was out from \$1.00 to 85c last fall, the payment on No. 6 and feed was cut only by 5c a bushel.

The 1928-29 crop year was a difficult one for the Canadian Wheat Pool because of the unusually heavy production the world over, Canada raised a record crop—about 520 million bushels—and Argentina, Australia, and the United States all had very large crops of wheat.

Coming as it does at a time when crops generally are none too promising, this pool payment will be a welcome one. The size of the payment will undoubtedly be a surprise to some for it was predicted during the low range of wheat prices in the spring that the Wheat Pool might possibly be unable to make further payments.

In the new crop the Wheat Pool has announced the initial payment will be on a basis of \$1.00 a bushel.

Stray Horses Sold By Public Auction

A bunch of stray horses which were gathered in the government roundup south of the river, were sold by public auction at Playfair's corral last Thursday afternoon.

The bidding was not very strong, and the price for the horses averaged about \$11.00 a head. Ben Gray of the auctioneer.

Bearcats Lose Game To Queensdown 5-4

Long Inning Rally Fails to Overcome Visitors' Lead

The Queensdown baseball club defeated the Bearcats in a game played in Basmano last Sunday afternoon. A rally in the ninth inning netted the Bearcats two runs, but Queensdown had a lead of three runs which was too much for the local boys to overcome. Ralph Burrows came to bat in the last inning with two men on bases and two men out. The Bearcat batter was given a walk, and Ralph Burrows following was thrown out at first.

Ralph Burrows pitched the game for Basmano, and played a nice game after a weak start in the first frame. George LePage caught behind the bat. Kay started the game for the visitors, and in the sixth inning was relieved by Rubbuck.

The Line-up:
Queensdown: Thompson 2b; H. Hoeft 1b; Walters c; Lawler ss; Rubbuck 3b; Wargany 2b; B. Hoeft rf; S. Rodbourne cf; Kay p.
Basmano: Simpson as; Bill Pollock 3b; Ralph Burrows p; Royal Burrows cf; Chisholm 2b; Walter Pollock 1b; Geo. LePage c; Leonard rf.

Wm. Pollock umpired the game.

Queensdown: 200 905 005
Basmano: 200 900 002-4

"Sorrell and Son" Story of England

Father-and-son love is the theme of "Sorrell and Son," coming to the Gem Theatre Friday and Saturday of this week, August 2nd and 3rd.

Much of the picture was filmed in Basmano, and with the aid of the author, Warwick Deering. All of the film "Sorrell and Son" is faithful to the spirit and letter of Warwick Deering's book, and the ending of the film is that of the book. Herbert Brenson, who made "Heavenly Creatures," and "Peter Pan," says that "Sorrell and Son" is his best picture. A father himself, Mr. Brenson believes the story of "Sorrell and Son" is that of any father and any son, and that the appeal of the film as entertainment is supplemented by its spiritual effect on men and women who view it.

The story of "Sorrell and Son" is that of a British war veteran whose wife deserts him and his six-year-old boy. The veteran, Captain Stephen

Countess News

COUNTRESS, Aug. 1—Mrs. Sorrell's sister from Calgary is visiting her.

Carol Gamble is spending a week in Gem.

Mrs. Royal Burrows, Mrs. Gamble and Mrs. C. Fryberger and children motored to Queensdown Friday to spend the day with Mrs. Burrows' sister.

Irrigation shovels were laid aside Wednesday afternoon when most of the Countesses took in the Gem Stamped.

Mrs. Geo. Fryberger and children, of Charlott, Montana, and Mrs. Gamble were afternoon visitors at the Biegs home on Thursday.

The children of the neighborhood spent a delightful afternoon at the Robinson home on Thursday.

Mrs. C. A. Bloom and children, of Minneapolis, who are here visiting with Mr. and Mrs. Robs., left the middle of the week for their home in the States.

Mrs. A. M. Anderson, Mrs. Gamble, and Mrs. Orline Hartley, of Basmano, were guests of Mrs. Simpson on Tuesday.

The afternoon was spent in playing bridge.

The weather is fine for putting up hay. Some of the alfalfa is almost ready for the second cutting.

12.00 WHEAT - PREDICTED

Grain men in Chicago and Winnipeg, who are in close touch with the world wheat situation, are predicting that \$2.00 wheat this fall is not beyond the bounds of possibility.

It is said to be doubtful whether Western Canada can this year produce more than 735,000,000 bushels, and some figure the United States northwest wheat crop will be about 185,000,000 bushels. The harvest returns in the northern states are a shock to the optimists.

Australia and Argentine weather is bullish, and European crops are far below last year's.

These factors have all combined to cause the phenomenal advance in wheat prices which "the world has witnessed during the past few weeks.

Sorrell, M. C., thereafter striven against ingratitude, poverty, vice and physical exhaustion to rear and educate his beloved son, in whom he is ultimately well pleased. Interwoven with the story of father and son devotion are the subplots of Stephen Sorrell's friendship with Panny Garland; Kit Sorrell's love for Molly Roland; Roland's kindness for Stephen Sorrell; Sergeant Burt's loyalty for Sorrell; Florence Paltry's scorn of her drunken husband and angry passion for Captain Sorrell; and Jora Sorrell's bitter struggle to win from her husband the love of her son, Kit.

Monday and Tuesday, August 5th and 6th, "Nameless Men" will head the program. This is a vivid and dramatic picture of the underworld. Wednesday and Thursday the theatre will be closed for further alterations and improvements.

Friday and Saturday next week, August 9th and 10th, Clara Bow is coming in "Three Weeks' End." This is a typical Bow melodrama, with an abundance of humor and thrills.

Wheat Harvest Will Start Next Week

Hot Weather Ripening Grains; at a Past Rate—Much of the Wheat Crop Will be Harvested by the Combine

Next week the harvesting of the wheat crop will begin in the Basmano district. Hot weather during the past week has caused the grain to ripen rapidly, and unless the weather changes the harvesting machines will be humming in the grain field the latter part of next week.

Most farmers, are expecting to thresh from ten to fifteen bushels to the acre from wheat sown on breaking and summer fallow, and from three to six bushels to the acre off the stubbled in crops.

A large acreage of wheat on non-irrigated land will be cut with the combine this year. Farmers plan to handle their crop by the "straight combine" method, cutting and threshing in the one operation. Last year much of the grain was first cut with a swather, allowed to lie in view of a number of days, and then picked up and threshed with the combine.

The swather will not be used this year, as the straw is short, and the stand of grain is not heavy, and can be most efficiently handled by the "straight combine" method.

At Coonfoot the wheat is a couple of weeks later than the Basmano crops, and yields of 12 to 14 bushels to the acre are expected of wheat sown on summer fallow. On breaking the wheat will probably yield 10 to 10 bushels to the acre. The wheat in trap is reported to be very poor.

In the Meakess and Hussar districts the harvest will be about a week later than at Basmano. 8 to 10 bushels is expected from wheat sown on summer fallow. Some of the fields are very dry with weeds.

In the irrigated areas of Gem, Countess, and Rosemary most of the grain is spring wheat, and to the acre are expected of wheat sown on summer fallow. Some of the fields are very dry with weeds.

In the irrigated areas of Gem, Countess, and Rosemary most of the grain is spring wheat, and to the acre are expected of wheat sown on summer fallow. Some of the fields are very dry with weeds.

Has Seeded Crop Of Fall Rye

R. P. Maurer Plants Quarter Section To Fall Rye—Grain Is Now Growing

R. P. Maurer, who farms a large acreage in the Basmano district, finished sowing 150 acres to fall rye about a week ago, and he reports that the grain is now coming up.

The crop was sown on summerfallow, and Mr. Maurer says that the soil contains enough moisture to germinate the seed.

There is very little acreage in rye this year, and what there is will yield poorly. The reason given for the poor rye crop this year is because the grain was stubbled in last fall, and like other stubbled in crops, it is suffering from drought far more than grain sown on summerfallow.

Mr. Maurer believes that rye sown on summerfallow will yield a good crop. It is understood that other farmers in the district are considering sowing some acreage to rye this fall.

The minister said that applicants were now in the field working on applications, and farmers throughout the province were rapidly coming to realize exactly what the board stood for, namely, a co-operative borrowing organization. The foundation of such a co-operative institution had to be carefully laid, as farmers had found out, in respect to their co-operative activities in other lines. Therefore it was advisable to go warily.

The Canadian Farm Loan Act simply provided the machinery whereby the farmers of Canada could pool their credit, and issue their own bonds to be sold to the investing public. The mortgage interest must be paid promptly otherwise the bond obligations cannot be properly met.

Though the Farm Loan Board had only come into being on May 6th, and had carried out operations for less than three months, much ground had been covered, much investigation had been done, and much information had been collected.

The record of the public work in the very early history of the school board is pleased to have such a staff of capable teachers.

At the meeting of the Basano school board last Monday evening, July 29th, Miss Irene Johnson, of Basano, was engaged to fill the vacancy in the school teaching staff created by the resignation of Miss Sadie Nelson. Basano school now has a complete staff of teachers, and with the exception of Miss Johnson the personnel is the same as that of last term. W. King is principal, and will teach the high school grades. Jas. Wright will teach the senior public school grades; Miss Violet Irving, the intermediate grades; Miss Irene Johnson, the junior grades, and Mrs. Orline Hartley, the primary grades.

The record of the public work in the very early history of the school board is pleased to have such a staff of capable teachers.

Elevator At Gleichen Destroyed By Fire

The tern elevator of the Pioneer Grain Co. at Gleichen was destroyed by fire Monday night, July 29th. Two other elevators, and a coal shed, which were in danger of becoming prey to the flames, were saved by the fire fighters. The elevator contained very little grain in the bins.

Loan Scheme Reported To Be Promising

Hon. R. G. Reid Announces Increased Interest In Project

EDMONTON, July 31—"Quite a large number of carefully selected applications are being handed by the Alberta Farm Loan Board, and those approved have been forwarded to Ottawa for final ratification, with the result that solicitors are drawing up final agreements and final actual loans under the Farm Loans Act will soon be made, according to the announcement made on Tuesday" by Hon. R. G. Reid, provincial treasurer and minister of municipal affairs.

As the funds for the loan are supplied by the Dominion government, it is necessary for all loans to be approved by the Dominion board. Solicitors then prepare the documents necessary to give the board first claim on the property.

Growing Interest

The minister said that applicants were now in the field working on applications, and farmers throughout the province were rapidly coming to realize exactly what the board stood for, namely, a co-operative borrowing organization. The foundation of such a co-operative institution had to be carefully laid, as farmers had found out, in respect to their co-operative activities in other lines. Therefore it was advisable to go warily.

Fine Sports Program At Gem Stamped

Large Crowd Attends Annual Sports Day In Gem Colony

More than eight hundred people attended the Gem Stamped last Wednesday, July 31st, and witnessed one of the best programs of horse races, bucking, and other events that has ever been given in Gem.

Some real broncos were there for the bucking contest, and many riders attended to compete in the bucking contest, including Slim and Eddie Wain, of High River, Pat Smith, George Mackintosh, and others. Slim Wain won the bucking contest, and his brother Eddie took second money.

The horse races provided many thrills for the spectators, and one of the best races was the relay. This was won by Sid Rodbourne, of Crowfoot, after an exciting contest with Flett, of Hand Hills. Flett led the relay for the first two horses, but with the third horse, Rodbourne passed the Hand Hills man and gained a lead of several lengths which he managed to hold with the fourth horse.

The basketball game was a very interesting event, and the Gem boys had it all their own way, winning over the Dorothy team by a large margin.

In the morning the children's events were run off, and the competition was keen. The boys and girls sports program was a very good one, and many took part in the races.

Following is a list of prize winners in the stamped events:

Bucking contest: 1st, Slim Wain; 2nd, Eddie Wain; 3rd, Pat Smith.

Barrel riding: 1st, Eddie Wain; 2nd, George Mackintosh.

Free for all horse race: 1st, Flett, of Hand Hills; 2nd, Sid Rodbourne; 3rd, Eddie Wain.

Walk, trot, and run race: 1st, P. Mackintosh; 2nd, Flett; 3rd, Eddie Wain.

Novelty (the race): 1st, many split between Flett and Shield; 2nd, A. Galareanu.

Relay horse race: 1st, Sid Rodbourne; 2nd, Flett.

Barrel race: 1st, Sid Rodbourne; 2nd, Flett.

Indian horse race: 1st, Shield; 2nd, Medicine Horn.

Democrat race: 1st, Paul Weasel Head; 2nd, Medicine Horn.

Boys' pony race: 1st, Flett; 2nd, H. Wain; 3rd, Eddie Wain.

Men's saddle horse race: 1st, Paul Weasel Head; 2nd, P. Mackintosh.

Ladies' saddle horse race: 1st, Rodbourne; 2nd, A. Galareanu.

Sheldahl pony race: 1st, O. Tetz; 2nd, C. Douglas.

Potato race: 1st, Sid Rodbourne; 2nd, A. Galareanu.

Honour race: 1st, Flett; 2nd, Shield.

Consolation race: 1st, H. Adams; 2nd, T. Peake.

100 yard dash: 1st, Donald MacGregor; Basmano; 2nd, Jesse White; 3rd, Gleichen.

220 yard dash: 1st, Donald MacGregor; 2nd, Jesse White; 3rd, Gleichen.

Over a Century in Railroadng

Sixty-one active years in railroadng is the unique record of W. J. Grant, district freight agent of the Canadian Pacific at Basmano, and this length of service is claimed never to have been reached by any other railway man in the Dominion. Mr. Grant has been married 48 years, and his length of service has been recognized by the C.P.R. At the same time Mr. J. P. Clancy, assistant foreign freight agent of the C.P.R. at Toronto, has also celebrated 100 years in railway service. Photographs show, left, Mr. Grant; right, Mr. Clancy; below, Mr. W. Maguire, who succeeds Mr. Grant as freight agent at Hamilton.

Hunter's Horse Wins Coveted Trophy

For the first time in history the much sought after Martin Memorial trophy, for horses in the jumping class held at the annual exhibition at Basmano, left the province, being won by Rolia G. Krippa, a gelding owned and bred by the T. H. Hunter stable of Basmano.

This horse was acknowledged to have given one of the finest performances for this trophy that has been seen at the Basmano exhibition. It was ridden by Bruce Bell, the trainer for the Hunter stable south, and great credit is coming to him on having the winner in this very hard-fought contest.

Tom Hunter

Canada Willing To Lend Assistance To Put Stop To Rum Running

Ottawa.—If the United States is prepared to check rum running from its coast, Canada will consider any further reasonable measure to halt the liquor traffic across the border. This offer was made by Hon. W. D. Brier, minister of national revenue, in a statement replying to numerous petitions asking the government to refuse clearances to liquor-laden craft.

Canada is willing to keep Canadian out of the liquor export business, he said.

At present the United States has no regulation requiring their vessels to obtain clearances. Accordingly, the authorities there are engaged in checking up on the activities of their own people, the statement points out. If the Canadian practice were carried out they would have a means of control which would provide in a large measure the remedy for the conditions for which they complain.

The statement reveals the rum-running situation between the two countries and in a general way replies to the barrage of communications which have been pouring in on the ministers from temperance people in Canada who wished this country to refuse liquor clearances.

The statement sets forth that practically 100 per cent. of the rum runners are American citizens who carry their trade with United States boats, but if Canadian citizens and Canadian boats engage in the traffic the government would be prepared to enact legislation dealing with the matter.

Only from two per cent. to five per cent. of the liquor consumed in the United States comes from Canada, the statement continues.

Canada spends a million dollars a year preventing liquor smuggling from friendly countries which do not prohibit clearances.

Mr. Brier unequivocally denies that the government is favoring the liquor interests as a return for campaign funds. He points to the legal actions against brewers and distillers as evidence.

Considerable emphasis is laid on the fact that the boats engaged in liquor-running along the Canadian border are required to get clearances by the Canadian government, but not by the government of the U.S. Mr. Brier thinks if the U.S. authorities would require clearances it would largely remedy the situation.

Should the Dominion Parliament enact legislation prohibiting clearances, the effect would probably be to "drive the trade into the States and saddle us with heavy expenses and do our neighbors no good."

Aid For Wainwright

Supplies Sent To Stricken Town By Alberta Citizens
Edmonton.—A carload of emergency supplies, consisting of groceries, clothing and furniture, was sent to Wainwright by the provincial government for the relief of a number of families left in difficult circumstances by the big fire. This action was taken on the basis of a report submitted by G. B. Henwood, deputy attorney-general, and H. A. Craig, deputy minister of agriculture, who visited the stricken town and conferred with a committee of the town council as to necessary relief measures.

To Fulfill Speaking Tour

Winnipeg.—The speaking tour of Hon. Herbert M. Marler, Canadian first minister, was postponed when he was called to Montreal owing to the death of his father, has not been cancelled, it was stated by his secretary, A. L. Hall. Accordingly, Mr. Marler is scheduled to give at Regina, Edmonton, and Calgary, will necessarily be delayed a week, but he expects to be present at functions in all three cities and arrive at Vancouver on August 5, for his trans-Pacific connection.

No Reception For Killmen

Ottawa.—No formal reception will be given the Canadian Blesley winners by the Dominion of Canada Rifle Association. It was announced by Col. R. J. Birdwhistell, secretary of the association. Any reception which Lieut.-Col. R. M. Blesley, Lieut. Desmond Burke may receive will depend on their own municipalities or military units.

W. N. J. 1798

British Naval Reduction

Will Suspend Work On Cruiser and Submarine Construction
London, England.—In an intensely dramatic atmosphere, Sir R. B. Macdonald revealed to the House of Commons the policy of the Labor Government in the matter of naval reduction. He declared that his ministry was prepared to walk hand in hand with the government of the United States to avoid competitive armament and finally, after a deal agreement had been reached, it was planned to summon the nations of the world into conference on the subject of general paring down of armaments and materials by land and sea.

For the present the government proposed:—
1.—To suspend all work on the cruisers Surrey and Northumberland, now under construction.
2.—To cancel the building of the submarine depot ship, Malindi.

3.—To cancel the building of two submarines already contracted for.
4.—To slow down dockyard work at other naval stations.

With regard to the 1929-1930 building program, the premier said in any case no further commitments would have been entered into before the present.

Macdonald intimated October looked a likely month for his proposed visit to Washington for a conference with President Hoover.

Steamers En Route To Hudson's Bay

To Carry Out Government Plans For Northern Development
Ottawa.—Canada's annual advance on the north is now in full swing. Four steamers are hurrying north in connection with the government's plans for the development of that great territory. Three of them are bound for Hudson Strait, and Hudson Bay to provide aid to navigation so that all will be ready when the port of Churchill is opened.

The fourth, the steamship "Methuen," is on her annual cruise to the Canadian Arctic archipelago, where the various outposts will be visited.

The department of marine has sent the steamer "Arcturion" to Hudson Strait accompanied by the steamship "Methuen" to construct a direction-finding station on Hamilton Island. The steamship "Acadia" is on her way to Churchill with a hydrographic party to survey the approaches of that port.

CRUISER BUILDING PROGRAM OF U.S. TO BE CANCELLED

No Extra Harvesters Needed For West
Sufficient Help In Canada Says Minister Of Immigration
Winnipeg.—With a light grain crop in Western Canada this year, the Canadian Government has decided to extend no call to Great Britain for the unemployed there to come to the Dominion and help in the harvesting.

Declared Hon. Robert Furber, Canadian minister of immigration, who was in Winnipeg recently, he stressed the fact that there is sufficient help in Canada to successfully harvest this year's crop.

"It has been through the west," he declared, "and found crops rather light. This means that we will not need as many harvesters this year as last. There are sufficient men in Canada to harvest the year's crop."

"Mr. MacDonald, the president said, 'has introduced the principle of party which we now have adopted and its consummation means that Great Britain and the United States henceforth are not to compete in armaments as political opponents but to co-operate as friends in the reduction of it.'"

Asserting that he could not but be responsive to the principles enunciated by MacDonald, Mr. Hoover declared the United States joins the British premier in his efforts toward disarmament in the same spirit.

Mr. MacDonald has indicated the good-will and positive intention of the British Government by suspension of construction of certain portions of this year's British program.

"It is the desire of the United Mr. Hoover said.

States to show equal good-will in our approach to the problem.

"We have three cruisers in this year's construction which have been undertaken in the government navy in the belief that drawings for which are now in course of preparation.

Actual needs would, in the ordinary course, be laid down some time this fall. Generally speaking, the British cruiser strength considerably exceeds American strength at the present time and the actual construction of these three cruisers would be likely to themselves to produce inequality in the final result.

"We do not wish, however, to have any misunderstanding of our actions and therefore we shall not lay these keels until there has been an opportunity for full consideration of their effect upon the naval agreement for which our hopes of relief from construction lie more largely in the latter years of the program under the law of 1928."

Following the annual meeting of the Company, the president and directors of the Canadian Pacific paid their first official visit to the "Duchess of York," latest of the 40,000-ton liners built for the R. St. Lawrence route to J. Y. (the red and white) ship.

Left to right: C. J. Henry, Chairman, Senator F. A. Blouin, Ross H. McMaster, Captain R. N. Stuart, V.C., D.S.O., and bar, U.S.N.R.N., commander of the vessel, W. N. Tilley, K.C., E. W. Beatty, K.C., chairman and president, W. A. Black, Sir Herbert S. Holt, and Grant Hall, senior, vice-president.

QUEBEC CONSERVATIVE LEADER

Winnipeg
London, England.—Reykjavik despatches to the London Daily Mail said the southeast coast of Iceland had experienced its most severe earthquake in 10 years. Big concrete buildings in the capital and other towns and villages were destroyed and many of the island's residents spent the night under the open sky.

The earthquake was reported by the London Daily Mail. It was said that the earthquake was the most severe since 1910. Many of the island's residents spent the night under the open sky.

Pontiff Emerges From Vatican After Long Period of Waiting

Fired On Soviet Planes

Action Of Chinese Troops Caused By Their Existability
London, Eng.—Reuter despatches from Tokio quoted a telegram from Manchuria, Manchuria, as saying Chinese troops had fired on five Soviet aeroplanes which appeared over the border town about 7 a.m. Later in the morning distant sounds of firing were heard but they died down shortly afterwards.

The shooting was believed to have caused merely by the excitability and nervousness of the Chinese troops. The newspaper which carried a special despatch from Manchuria, said Russian and Chinese troops had opened fire on each other when 10 Russian aeroplanes appeared over the city.

The shooting was believed to have caused merely by the excitability and nervousness of the Chinese troops. The newspaper which carried a special despatch from Manchuria, said Russian and Chinese troops had opened fire on each other when 10 Russian aeroplanes appeared over the city.

Vatican City—The 69-year-old

Pontiff emerged from the Vatican on Sunday, the day after his long period of waiting. He was seen in the balcony of St. Peter's Cathedral in the last hours of daylight. Before a crowd of hundreds of thousands, the Pope was carried on a dais around the colonnades of St. Peter's square and returned again to the altar beneath the massive dome of the cathedral.

He held between his hands the golden monstrance of the Sacred Host and there spread out around him the shroud of the colonnade of St. Peter's square and returned again to the altar beneath the massive dome of the cathedral.

(1342)
 An Indian grave, discovered by accident by Canadian Pacific employees at work near Brooks, Alberta, last May, is considered by experts to be between 300 and 400 years old. It is thought the grave was originally above ground but the passage of centuries had buried the grave below the soil. An irrigation ditch was being constructed when the grave was discovered.
 27-motored airplanes are being launched in one of the most spectacular fights in the history of aviation. War has been declared by the Canadian Government on the spirit and words of the airplane. It is to be the principal arm of the service. Planes each carry 1,000 pounds of powder and will that it while flying low, over the tree tops.

We say that we marry "for better or for worse" - but alas, most of us marry for an escape from loneliness, for a passing fancy, for a romantic adventure, or just "for instance."
 - Medicine Hat News.

When the doctor arrived he found the patient in tears.
 "Cheer up, my good man," he said, "you'll pull through all right."
 "That's that," groaned the patient, "but just think of 'all the money I've spent buying apples to keep you away!"

Hensley: "I say Jones, can you define a pessimist?"
 Jones: "Yes; he's a man who, when given the choice of two evils takes the both of them."

"There must be something wrong with American stock breeding methods."
 "Why?"
 "I hear the United States is about fully overrun with blind pigs."

GOOD BYE to TIRE TROUBLE

Equip your car with a new set of Dominion Royal Cords or Royal Masters - and bid a long farewell to tire trouble.
 These two tires can't be beat.
 Royal Cords are the finest moderately priced tires made.
 Royal Masters cost more than any other tire - but they're certainly worth it.

 \$2.50 in the United States

Flying continuously for more than two weeks may, to the layman, appear to be a waste of time and money, but it serves a useful purpose in testing out the motor and general construction of the plane. Weak points are discovered, and these mechanical features are improved to make commercial flying safer.

Two motorists recently had their driver's licenses suspended for reckless driving. It would appear that the new weapon provided by the Alberta Legislature will be effectively wielded against the reckless driver.

A PARK
 The people of Bassano have, within the past few years, added a number of improvements to the town which today are counted among its most valuable assets. The most important of these are: the planting of shade trees, the installation of an irrigation system, and the building of a swimming pool.

And now another improvement, the building of a park, is being considered. The suggestion was made at the last meeting of the Board of Trade, and that body is now looking into the matter.

The proposed site for the park is just west of the swimming pool. This ground, about a block in area, could, it is believed, be acquired by the town at no cost. It is a good location for a park, and as an irrigation ditch runs through it, the growing of shade trees and bushes would be quite feasible.

It will require a number of years to transform the bare ground into a park covered with trees and bushes, but it can be done, and the result will be well worth the effort.

ENCOURAGING OUTLOOK
 Although the farmers in the Bassano district will thresh only a small crop this year, the rising price of wheat will result in much greater returns than were expected a month ago.

The phenomenal advance in the wheat market has heartened the grain growers, and, coupled with the remarkable growth of the crop in spite of the drought, the wheat grower in the Bassano area will not fare so badly this year. Where a month ago he was figuring on taking a loss, today he can count on making a profit.

Crops on the irrigated lands are looking fairly good, although, like the dry land, the yield will be considerably smaller than last year.

1929 cannot be counted as a good year for Bassano, but in the light of present prospects and the advancing price of wheat, the situation looks more encouraging than it did a few weeks ago.

CLOUDS

(by J. H. MacIntyre)
 May it not be that oftentimes
 The cause of much of our grieving
 Is that we cast our lives all out
 And then in peering round about
 We find some cause for grieving?

Yet Providence, which never errs
 Ever deals with us in kindness;
 But though our thoughts we may not say
 We sometimes think the other way.

That's due to our own blindness.
 A cloud may float across our path,
 Yet that's not hopeless sorrow;
 The sun will shine some other day
 And chase the darkness all away
 'Till shine upon the morrow.

The inner side of God's great clouds
 Is beautiful and shining;
 Let's therefore turn our clouds about
 And always wear them inside out.
 To show the silver lining.

Attractions in Heaven

Four year old Bobby was much interested in the story of David and Goliath which his mother read to him. When she was through he asked:
 "Mamma, were is David now?"
 "In heaven, I suppose."
 "Will I go to heaven when I die?"
 "I hope so, dear."
 "Mamma," (his little voice was very eager now), "do you suppose when I get to there David will let me hold his slingshot a little while?"

His Favorite Brand
 "Saw, Gawse, wot kinda cigars does you like smoke?"
 "Het, 'My brother, I smoke Robinson Crusoes!"
 "Wot kinda cigars are Robinson Crusoes?"
 "Castaways, dumbbols, castaways."

A FEW WORDS OF CRITICISM

(by J. J. Montague)
 I fully agree with the poets
 Who tell us that Nature is grand,
 But I have little praise for a few of her ways.

Which I find I can not understand,
 The bugs which arrive in my orchard
 Leaving sheer devastation behind 'em
 When they go on their raids are arrayed in such shades.

That the weeds and the robins can't find 'em.
 The aphids, these razor jawed creatures
 Which are scattered around by the ants.

Are clad in a green of a translucent sheen
 That matches the stalks of the plant.
 And by never a bug-eating songster
 In a forage for food for his hunger long bred.

The pleasing notes are discovered
 The low, although sweet and awful
 Because of the eggs she will lay.
 But a hawk or a kite as they pose in their flight.

Can see her a half mile away
 And the birds which make wonderful music
 At a price to the bees which hover about them.

Their plumage are so bright that they glow in the night
 And the hot hunting hawk can get them.
 So I file this complaint against Nature.

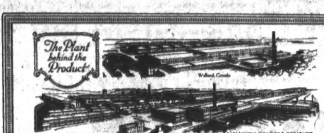

Who is given, I hold, to mistakes
 I've contended for long that she's rather too strong
 For the word of the creatures she makes.

For the most of her plentiful blessings
 I am filled with a sense of thanksgiving.
 But I think she errs in the habits of hers
 Of letting the pests go on living.

The Pig of It

Mrs. Byrne's only lodger, an actor, gave her two tickets, for herself and daughter, to see him play the villain in the drama, "All For Love."
 Spellbound, Mrs. Byrne watched the villain pursue his wicked way through three acts. It was a great shock to her to find she had harbored such a villain, but worse was to follow. In the last act the hero shot the villain through the heart.

"Oh, mother," cried her daughter, "they've shot our lodger and he owes us three weeks' rent."

Good Twine
 There is a world of satisfaction for the farmer in the use of twine that runs smoothly in his binder from beginning to the end of harvest. The Good, Old Reliable
PLYMOUTH TWINE
 even and strong throughout, and is more economical to use than short-length twine. The length is guaranteed by the tag on every ball of Plymouth.
 Treated with Insect Repellent

Plymouth Binder Twine is unexcelled. We have a supply of the 8 pound balls.

Forty Motor Shows in Canada This Year
 More than forty Canadian cities and towns have held motor shows so far during 1929, thus increasing the education of their inhabitants on the automobile. In an interview with the Toronto Mail and Empire, this point was advanced by H. A. Brown, vice president and general manager of General Motors of Canada, as an indication of the tremendous interest manifested by the public in new models and new makes of cars which were viewed for the first time at the various shows.

It might be thought that standardization, which has made possible the values obtainable in cars built on this continent, would tend to make the motor show lack in variety, but Mr. Brown pointed out that last year the Canadian buyer had his choice of 255 different styles, and in 1929 General Motors alone offers more than 100 different models.

Mr. Brown pointed out that one of the most important developments of the current automotive year, from the point of view of the average Canadian, was the decentralization of manufacture by location of plants in several new cities, so that a few growing number of citizens were deriving benefit therefrom. "Cities and towns which a few years ago had no connection with the motor car industry are today vitally interested through the location of manufacturing or assembly plants within their limits," he said.

"That's a small engine for such a big car, isn't it?"
 "Oh, it's small alright. You see, it smoked a hole in it was young."

Local News

Mr. and Mrs. D. McLeod returned home this week after spending a vacation at Calgary and Waterton Lakes.

Results of the departmental school examinations are now being made known. Next week we hope to have for publication the complete list of the results obtained by Bassano pupils. A number of pupils have been notified that they passed their exams. These include Horton Ford, Perry Johnson, Eleanor Heflebower, Alva Hopkins, Lloyd Leonard, Ruth McFarlane, Katherine Hunter.

Wednesday, July 31st, was the hottest day of the summer. The C. P. R., D. N. R., thermometers at Gun and Bassano registered 95 degrees in the shade.

Harvey Smith was a business visitor to Calgary last week, attending a gathering of McLaughlin-Bulck dealers.

The date of the Masonic Community Hall last Friday evening was attended by a fair sized crowd, and a good time was enjoyed.

W. K. Sambrooke and Dr. A. G. Scott are making progress with their airplane. They expect to have the motor in a very short time. The motor has been delayed for many weeks, and when it arrives the plane will be rushed to completion.

To Re-Organize Poultry System in Alberta

Extensive Research to be Carried Out by Poultry Department

Edmonton, Aug. 1.—George McCormick, who for several years has been in charge of the Dominion Government poultry promotion work in this province, has been appointed poultry commissioner for the Alberta Department of Agriculture, according to an announcement made on Thursday by Hon. Geo. Hoadley, minister of agriculture and health.

The minister stated that under a recent arrangement between Dominion and Provincial Governments poultry promotion service of the Dominion Government is being withdrawn from Alberta, and the policies of the two governments will be continued in the future under the Alberta Department of Agriculture.

The department will work in close co-operation with the various poultry organizations, including the Poultry Pool, the R. O. P. Association, the Turkey Breeders Association, accredited and approved flock breeders and owners of farm flocks.

It is recognized that poultry raising is rapidly becoming an important branch of the farming industry, and it is the desire of the department to give every possible assistance and encouragement to this important activity.

CORRECTION

In the report of the funeral of Herbert Cutforth, published in last week's issue, the name of the minister who preached the funeral service was given as the Rev. P. G. McCrae. This was erroneous. The funeral took place from the Anglican Church and the service was conducted by the Anglican pastor, Mr. L. D. Batchelor.

Coming Foot Expert August 5th
